

# VERMEER

# HDD FUNDAMENTALS

This one and a half day, instructor-led, certificate program is a rigorous classroom training program custom-tailored to equip students with fundamental and extensive knowledge of drilling operations. Each student will learn the fundamentals of HDD, including mud mixing techniques, preventive maintenance, tooling usage, DCI locating, safe operating procedures, job site efficiency and more. This training course is designed for all experience levels and will provide value for any horizontal directional drilling (HDD) position in your company, such as drill crew members, including operators (new to experienced), managers, and safety supervisors.

## Course Curriculum includes:

- Introduction to HDD
- Soil & Drilling Fluids
- Drill Walkaround
- HDD Overview & Safety
- Pullback & Machine Maintenance
- HDD Bore Planning
- DCI Class & Hands On

## HDD Fundamentals Kit:

Each student enrolled in the class will receive a Vermeer HDD Fundamentals training kit which they will use as reference in the field. The kit includes:

- HDD Fundamentals workbook
- Vermeer notebook
- HDD bore planner book
- Tally book with reference cards
- Mud mixing guide
- Tooling application guide
- Drill rod thread gauge
- Borestore tooling catalog
- HDD support manuals & video

## Certificate of Completion:

- Each student that completes the course will receive a certificate of completion.

**Pricing:** \$550 per attendee, limited space available.
